

PRODUCT CODE **YT-2236 Nano Efficient Auxiliary Stabilizer**
DESCRIPTION

PHYSICAL STATE White powder, non-toxic, odourless, non-flammable, water-insoluble.

APPLICATIONS Polymeric composites by nanotechnology and fully compounded. Applicable to commodity plastics - **PP, PE**; engineering plastics - **Nylon, PBT, PET**; thermoplastic elastomer - **TPE, TPR, TPU**.

CORE STRENGTH ✓ Colour rendering, increase stiffness and glossiness, easy demoulding.
✓ Auxiliary stabilizer of YT-300, YT-586N and YT-886.

DOSAGE 0.1~0.6 phr

**INTERNATIONAL
QUALITY STANDARDS
COMPLIANCE**

PACKAGING 25 kg paper bag

STORAGE

- Store in a dry place to avoid moisture.
- Avoid sunshine or it may affect the quality.
- Keep away from fire and pay attention to the stock safety.
